

NZTA Sync:

Automated Compliance Reminders

OVERVIEW

Increase visibility on secured assets

01

Easily bulk upload registered assets to Blackhawk.

02

Set a daily, weekly or monthly NZTA sync to determine which registered assets are non-compliant or non-roadworthy, as a reflection of risk.

03

Set-up workflows to trigger notifications:

- WOF/COF/license expiry
- Change in ownership
- Change in registration
- Change in stolen status

VISIBILITY

Compliance and Risk Indicators

COMPLIANCE REPORTING

Set a daily, weekly or monthly NZTA sync to determine which registered assets are non-compliant (uninsured) or non-roadworthy.

Set up notifications and reminders. Easy setup with bulk import of registered assets.

Compliance Summary:		STATUS CHANGES (THIS WEEK)			
VEHICLE ID	STATUS	WOF	REGO.	OWNERSHIP	STOLEN
ABC123 (FORD)	EXPIRED	⚠️	⚠️	✅	✅
DEF456 (MERCEDES)	WARNING	✅	✅	⚠️	✅
GHI789 (HYUNDAI)	STOLEN	✅	✅	✅	🔔
JKL101 (TESLA)	EXPIRED	✅	⚠️	✅	✅

BENEFITS

Return On Investment

Struggling to keep on top of your vehicle fleet compliance, and getting surprises from the borrowers in your Ledgers? Mitigate your risk by finding out earlier in the cycle about tell-tale changes to your secured assets.

Manage your vehicle ledger proactively rather than reactively:

- Proactively manage changes in status of your vehicles
- Easier collections process
- De-risk 'events' earlier with real-time status change notifications

With Blackhawk NZTA Sync, you have early warning insight into:

- WOF/COF
- Registration expiry or deregistration
- Ownership changes, current owner change detail updates
- Stolen vehicle status updates

Blackhawk can send notifications to any staff member, and or 3rd party providers, on any change in status of the WOF, Rego, change of ownership, change in registration, or stolen statuses.

It is easy to setup and cost effective.
